INTEGRATED TIMER FOR SOLENOID VALVES GEM-SOL SERIES

The new economic package is aimed for application demanding space saver solution with pre programmed time setup.

Advantages & benefits

- **Quality and Precision** - high end timing unit combined with Baccara's top of the line Gem-Sol solenoid
- **Compact** - Small size combination
- **Versatile** - GEM-B coils suitable for all in various voltages for AC and DC
- **Rigid and safe** - IP65
- **Cable included**

Technical specifications

On / Off time range: up to 24 hours
(hh:mm:ss)

Temp. range: -20°C ~ 100°C

Protection: IP65

Voltage Range: 12V DC ~ 24V DC \pm 15%
24V AC \pm 15%,
230V AC \pm 15%

Max. Coil power: For DC: 10W
For AC: 8W

Connector: DIN 43650

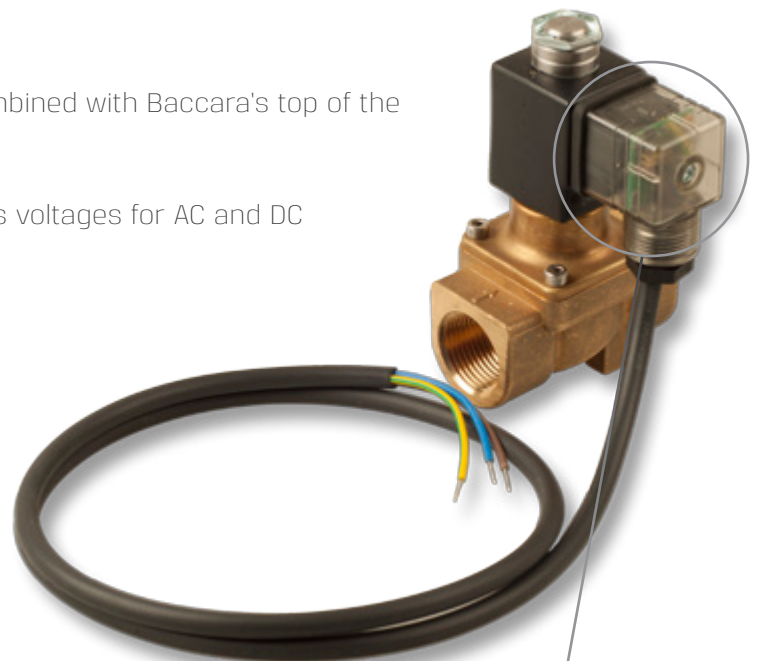

Connector cable: For DC - (2x22 A.W.G) 1m length
For AC - 3x0.75 mm², 1m length

Weight: 90g.

Timing: On delay, Off delay, Sequential
Timing options are fixed.
Any timing combination can be pre ordered from Baccara

Applications

Compressors, air lines releasing of water/liquid, trucks

Inner timer
